2023 EDITION

GENEQ is very proud to have celebrated its 50th anniversary in 2022. A Quebec company since 1972, still in business in 2023.

From the very beginning, our goal has been to offer our clients the latest technology products while providing the best possible value for the money.

Through our 4 departments, Environment, Biotechnology, Materials Testing and Geomatics, we offer a wide range of instruments and products to meet all your needs.

Our dedicated and experienced sales team responds enthusiastically and diligently to your questions and quotation requests.

It will be our pleasure to send them to you or to prepare a quote for you.

BIOTECHNOLOGY

Testing and analysis equipment for food science, pharmaceutical hospital, research laboratories, educational institutions.

MATERIALS TESTING

Materials testing and measuring equipment for civil engineering, coating industry, steel and plastics.

GEOMATICS

GPS/GNSS systems for mapping in the fields of hydroelectricity, transportation and geographic information systems (GIS) as well as civil engineering, agriculture, forestry and oil.

WATER

Electromagnetic flowmeters

Mechanical flowmeters

Portable peristaltic samplers

Automatic water samplers

Battery powered
peristaltic pumps

Swing samplers

Water samplers

Sampling dredges

Levellogger and accessories

Telemetry systems

Water level
temperature meters

Water / Oil
interface meters

Stainless steel pumps

Multiparameter systems
for water quality testing

Multiparameter probes

Colorimeters

Turbidity meters

Palmer-Bowlus flumes

Portable sludge level detectors

Water level gauge

OTHERS

Surber stream bottom samplers

Battery backpack electrofisher

Live animal traps

GPS and data collectors

Rugged tablet for data collection

High accuracy GPS / GNSS receiver

SOIL & AGRICULTURE

Soil nitrate quick test kits

Chlorophyll meters

Hydrocarbon test kit for soil

pH meters for soil

Soil moisture meters

Multi-segment soil moisture & temperature profiling probes

Wireless data loggers & soil moisture sensors

Guelph permeameter

Field and laboratory permeameters

Soil sampling kits

Lysimeters

Sieves & sieve shakers

Compost monitors

Compost thermometers

Ovens and furnaces

Weather stations for agriculture

Spectrophotometers

Multiparameter measuring instruments

Titration

Reagents

Electronic balances

Moisture analyzer balances

Incubators

COD incubator

Sensors for BOD analysis

Flocculators

Capillary suction time apparatus

Rotary evaporators

Soil grinders

Kjeldahl distillation units

Microscopes

Filter papers

AIR | HEALTH & SAFETY

Gas detectors

Portable gas detectors

Fixed gas detectors

Desktop indoor air quality
CO2 monitors

Thermo-hygrometers

Anemometers

Portable particulate monitors

Outdoor high volume
air samplers

Air quality meters

Combustion analyzers

Particle counters

Heat stress monitors

Light meters & data loggers

Sound level meters

Ultrasonic leak detectors

Radiation detectors

Portable weather stations

Fixed weather stations

Weather sensors

Weather sensors

Wireless solar powered weather stations

Pyranometers

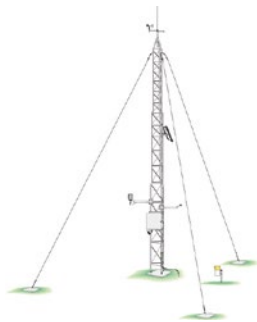

Rain gauges

Pocket weather meters

Digital temperature, humidity, sound, light and air flow meter

Towers

Portable barometers

Thermo-hygrometers

Road temperature sensors

Mobile detectors for road conditions

Lightning detectors

High-speed data loggers
